Test Proctor

Policy

Individual tester is responsible for using an approved proctor or securing a “defensible” proctor. Defensible means the proctor can administer the exam without bias. Tester is accountable for using a defensible proctor. All certification testing will online, hard copy paper tests will only be considered if there are extenuating circumstances that warrant hard copy testing.

Unacceptable proctors include family members, friends, subordinates, and employees.

Acceptable proctors include supervisors, military officers or NCOs, librarians, teachers, and school officials to name a few.

AALSSC will conduct random proctor audits to verify proctor identified during registration actually proctored the exam and is unbiased to the outcome. If either a tester entered fraudulent proctor information or it is determined the proctor was biased (or otherwise not defensible) the individual’s certification will be rescinded without refund. Tester can submit a formal complaint if he/she disagrees with the audit’s findings by following the complaint process.

3. Tester confirms proctor is present just prior to beginning certification test.
